Another Inspection of the New Sewer System.

THE CONDITION OF THE WORK.

Weekly Tour of the Board of Public Works—The Third-Street Tunnel—Question of Street Paving.

City Engineer Dockweller, Street Superintendent Hutchinson, Andy McNally, the contractor, and William McLean, the cement expert, yesterday made an inspection of the sewer, with a view of ascertaining the condition in which they were in, and whether the sensational charges as to crookedness in the construction which have appeared in certain papers, were borne out by the facts. The party were accompanied by a couple of laborers, provided with hammers and chisels, for the purpose of examining the work. The sewer was entered at the river on Sixth street. Here the mouth has been temporarily bricked up, as it will have to be torn out when the connection is made. At this point a small amount of water had percolated through, and was standing in the sewer. From this point a careful and systematic examination was made, taking in Grand avenue, Washington street, out to the terminus at Washington street. Messrs. McNally and McLean, who had been taken along as experts, expressed themselves as very well pleased with the work, the gentlemen saying it was as good a job as any of the kind they had ever seen. The cement and concrete were harder than stone, and it was with difficulty that they could be cut with a chisel. In one place a brick was found to have been cut out.

The result of the inspection was especially gratifying to Mr. Hutchinson, who was chief inspector during the progress of the work, and felt of course considerable pride in the work. City Engineer Dockweller has been very conservative heretofore in his criticism of the sewer work, and has never authorized any wholesale condemnation of the work. He still says that in some places the work is not as satisfactory as could be wished, but does not go any further.

PUBLIC WORKS.

The Board of Public Works, consisting of Councilmen McGarry, Rhodes and Rees, and Councilman Innes, yesterday made the regular weekly inspection tour about the city.

The first point visited was at the intersection of Wall and Boyd streets, where there is a bad mudhole, which will be ordered filled up by the street forces. Several other points that project into the roadway at the corner of Boyd and San Pedro streets, and which are a standing menace to the safety of teams, will be ordered removed at once.

Bad places in the streets at the corner of San Pedro and East Third streets, and at Wilmington and Reguena streets, will be ordered repaired.

From this point the party went to Mission street, where a big mudhole is being filled up, and from there proceeded to Griffin avenue, East Los Angeles, to inspect the grading near Grandin street, and investigate the complaints of citizens about damage from storm water.

The new city hall at Yale street was next inspected, and some minor matters attended to.

The party then started for Pink and Toluca streets, on the hills, stopping en route at the residence of Councilman Innes, where a short stop was made.

It appears that a large section of country is cut off from protection against fire for the reason that the city cannot get to the bad places in the street, and it was decided to recommend that the intersection of Pink and Toluca and Pink and Kern streets, be put in such condition that a fire engine can get through.

This completed the labors of the board for the day, and the party were driven back to the City Hall.

THIRD-STREET TUNNEL.

It is more than probable that Councilman Bonelli will bring up the matter of the proposed Third-street tunnel at the meeting of the Council Monday. The cost of this work has been estimated at about \$75,000, and is claimed by the friends of the enterprise that it would be a great public improvement and accommodate a large number of people. Mr. Bonelli's idea is to have the street paved by the chain-gang, and says that the employment of these men on this work would result in a large saving to the city in the matter of hire of teams. Mr. Bonelli is a considerable item. He also thinks that sufficient gravel could be got out of the tunnel to partially pay the expenses. Mr. Bonelli is very much in earnest in the matter, and says he intends to push the work, if such a thing is possible.

STREET PAVING.

Since the passage of the Street Paving Bond Bill considerable interest has been manifested in the matter of street improvement, not only by contractors and property-owners, but by the Councilmen, and street paving is becoming a leading topic of conversation at the City Hall. Almost every style of paving known has its advocates, and the advantages of asphalt over rock, or porphyry over macadam, as the case may be, are set forth in glowing terms. The latest "fad" is that of vitrified brick. None of this material has been used in Los Angeles, but in many eastern cities it has been tried and found to be a success. Councilman Bonelli is an advocate of the brick pavement and has spent considerable time in getting up statistics and information on the subject, and it is more than probable that an effort will be made to have the material given a trial in this city.

VAN HUYZEN'S CASE.

Mr. Ross Explains His Position in the Investigation made before the Board of Supervisors on Wednesday last of his transactions on behalf of an indigent named Van Huyzen. Mr. Ross claims that the statement is correct, and signs his name to it.

On March 3, 1890, Mr. Van Huyzen came to board at my house. Dr. Boal made an agreement with me that I should receive \$5 per week for Mr. Van Huyzen's board and care. I went with Dr. Boal to the Board of Supervisors, and they agreed to contribute \$10 per month, which was applied to his board. He had not then, and never had, to my knowledge, any money of his own. In regard to the payment of the \$5 per week, I then gave Van Huyzen credit for \$50. The homestead claim in Antelope Valley he had lost all claim to by being absent from it so long, and there was a contest filed against it by the Land Office by a man who held Van Huyzen's note for \$75. I found a party who had a vacant lot on Pico Heights who offered to trade for it. Van Huyzen's relinquishment of his Antelope Valley land, but I would not trade unless the contest was withdrawn. I reported this to Mr. Van Huyzen. I then got the man who held the \$75 note to agree to withdraw his contest and give up the note for \$30. With Mr. Van Huyzen's consent I paid the \$30 and took up the note. I then told Mr. Van Huyzen and Dr. Boal that I would give him \$150 for the lot, if he preferred it, and let the deed be made to me or my wife. They decided to take the money and let it be applied on his board to make up the balance of the \$5 per week, so far as necessary. (Here I would state that I received the \$10 per month from the Board of Supervisors, beginning with the month of March, up to October, he leaving my house November 3, 1890.) I did not charge Mr. Van Huyzen anything for disposing of his property, which gave me some very hard work. But the party who traded for the lot, the rela-

quishment of the homestead claim did pay me for my services (not for money expended) in getting the contest removed. All this I stated fully to the board on Wednesday. I made and presented to the Board of Supervisors a full statement of my receipts and expenditures on account of Mr. Van Huyzen, (including the \$10 per month paid by them) when Mr. Van Huyzen went away, and the statement was before the board on Wednesday. In that statement I charged \$5 per week for Mr. Van Huyzen's board and care; and it shows an indebtedness to him from me of \$34.15, for which I have given my note to Van Huyzen, and am ready to pay at all times. I will say further that all the time Mr. Van Huyzen was at my house he was physically helpless. His meals and water had to be taken to him, and his food cut up. He had to be helped in bed and out, and dressed part of the time.

WATER MEETING AT AZUSA.

Preliminary Steps for the Organization of a Water District.

A mass meeting was held at Slauson's hall, Azusa, yesterday to consider the question of forming a water district, under the Wright act.

The meeting was called to order by G. T. Brown, who stated that the object was to invite a full and free discussion of the best way of organizing a water district under the State law known as the Wright act; also to hear the views of Judge T. K. Wilson of Los Angeles, on the subject.

H. C. Register was unanimously elected chairman, and B. Nathan was unanimously chosen secretary. Judge Wilson then addressed the meeting. He explained the workings of the Wright act, and the preliminaries necessary to effect an organization under said law. In the course of his remarks he said there was no doubt as to the constitutionality of this law as the Supreme Court of the State had twice passed upon it and, incidentally, a third time. The Judge also asserted that to the best of his knowledge and belief the law had been twice tried, and that the value of the land under this system had increased in a much greater proportion than the taxes.

Many questions were asked of the Judge by different members of the meeting and satisfactorily answered.

G. T. Brown, H. C. Register, H. C. Register, Messrs. Nathan, H. C. Register and others then followed with remarks.

It was moved by G. T. Brown, that the chair appoint a committee of three to draft resolutions declaring the sense of the meeting. Carried.

The chair appointed as such committee G. T. Brown, J. H. Adams and H. D. Briggs.

The Committee on Resolutions reported suitable resolutions which, after some discussion, were adopted.

On motion, the chair appointed a committee of five, whose duty it shall be to select a committee of twenty to take such steps as are deemed necessary to further the formation of a water district under the Wright act, which committee shall report to the session of this meeting to be held at Slauson's hall, Saturday, March 28, at 3 p. m.

The chair appointed as such committee of five G. T. Brown, W. D. Cullen, C. Vaughn, H. D. Briggs and J. H. Adams.

Adjourned to 1 p. m.

The meeting again came to order and the report of the committee of five was heard. It named the following as the committee of twenty: H. D. Briggs, J. A. Metcalf, G. T. Brown, H. C. Register, J. H. Adams, C. Vaughn, S. C. Headley, John T. Brown, W. C. Ormiston, John Houser, E. R. Coffman, H. C. Register, D. W. Hamilton, M. H. La Feta, J. C. West, W. D. Cullen, J. S. Eccles, W. R. Powell, L. J. Follard and W. J. De Shields.

The report was unanimously adopted and the committee of twenty thus appointed, was ordered to report Saturday, March 28, at 2 p. m.

A Vote of thanks was then tendered to Judge Wilson for the interest he had taken in the matter, and an explanation of the legal points involved.

The Judge responded, after which the meeting adjourned to March 28, at 3 p. m.

EXCITING RUNAWAY.

Valuable Horse Killed Yesterday Afternoon—Narrow Escape.

One of the most exciting runaways that has occurred in this city for some time past took place on Olive street at 4 o'clock yesterday afternoon.

During the afternoon Mrs. Foy was driving her son J. C. Foy's fine trotter out, which she has been in the habit of doing for some time past. After she had been out a short time, she noticed that the animal was not acting right, and drove back home and asked the colored boy who takes care of him to drive him around awhile and take some of the fire out of him.

The boy had only driven a short distance from the house when the animal ran away. Mr. Bonelli's idea is to have the street paved by the chain-gang, and says that the employment of these men on this work would result in a large saving to the city in the matter of hire of teams.

Mr. Bonelli is a considerable item. He also thinks that sufficient gravel could be got out of the tunnel to partially pay the expenses. Mr. Bonelli is very much in earnest in the matter, and says he intends to push the work, if such a thing is possible.

Paraphrase, "How Fair Art Thou"—(Wevadna).

Storm Damage in Arizona. Scarcely any section of Arizona appears to have escaped the effects of the late disastrous storm. The works of the extensive Reymert mines in Pinal county, of which Judge Keymer of this city is president, were injured to the extent of \$25,000. Many of the residents of the camp were imprisoned in their houses for several days, being unable to get out to obtain food. These mines, which have been shut out by regular repairs, will have to shut down until repairs are made. Quite a number of other mining companies in that "arid" region are in the same fix.

RECOMMENDATIONS GIVEN TO DR. WOH, The Celebrated Chinese Physician.

Thereby testify that I have been under treatment of Dr. Woh, the celebrated Chinese physician of this city, the past five weeks for a complication of diseases of long standing and can gladly and sincerely say that he has entirely cured me.

Santa Fe Hotel, Los Angeles, Cal.
J. E. HEDRICK, Riverside, Cal.

For eight months past my wife was a great sufferer from female troubles. For days at a time her pain was so severe that no rest could be had, and she was unable to get up. I was forced to call on Dr. Woh, the Chinese physician. The doctor undertook to cure her and now with grateful hearts we confess to a complete recovery in her case.

February 24, 1891. I. S. CRAIG, Alameda st., near Jefferson st., Los Angeles, Cal.

I want to add my testimonial to the remarkable manner in which Dr. Woh has cured me. I had for years been suffering from sciatica my body at times being literally covered with sores and swellings. All treatment failed, until I was introduced to Dr. Woh's office. He advised me and gave me medicines and in less than two months I was well and healthy. I do thank Dr. Woh for his great success.

January 8, 1891. MISS LIZZIE WHITE, Santa Fe Hotel, Los Angeles, Cal.

For quite a number of years I have been a great sufferer and paid out large sums of money for doctors and medicines. My disease was claimed by some to be bright's disease, others said it was gravel, but I could not find relief. I got worse and worse until my life was despaired of. The treatment and operations to which I submitted were terrible. Finally at the request of a friend who had been cured by Dr. Woh, I consented to submit my case to his hands. The doctor seemed to know my trouble from the very first and told me he would entirely cure me within two months' time. In less than that period my strength came back, my general health was restored, and ever since that I have been a well and happy man.

February 24, 1891. AXEL MRELAND, 416 S. Main st., Los Angeles, Cal.

The remedies are purely herbs and roots which Dr. Woh has familiarized himself thoroughly with by a long practice in the Imperial hospital of China. Dr. Woh is the oldest and best-known Chinese physician in Southern California, and his cures have been remarkable, especially in female troubles, tumors, etc. All diseases are located by and through the pulse. Free consultation to every one and all are cordially invited to call upon Dr. Woh at his office.

SENATOR FELTON.

The Senatorial struggle is over. The Legislature has elected Charles N. Felton to occupy the seat of the late Senator Hearst for the unexpired portion of his term.

The vote at the close stood: Felton, 73; Estee, 15; Johnston, 1; Hancock, 1; White, 28. On the last ballot Marion voted for Felton, Carpenter for Estee and Mathews for White. The asserted discovery of proofs of bribery in connection with the Senatorship, with which it was sought to connect Felton's name, proved to be a boomerang—it expedited a result which it would probably have taken several days to arrive at, had this great "discovery" not been made.

The news of Mr. Felton's election will be received with relief by a great majority of the people of California: firstly, because it puts an end to a series of disgraceful episodes which have caused honest citizens to blush for their State; secondly, because a man has been elected United States Senator from California without the use of corrupt methods, for the first time in many years; and thirdly, because, in the election of Mr. Felton, that great exacting, domineering, one-man power which has so long held California in its clutches, and debauched its politics, has at length received a blow direct in the face.

THE TIMES has very recently given at length its opinion of Mr. Felton, as a man whom we believe to be in every sense a worthy choice for the honorable and responsible position of United States Senator. We endorsed Mr. Felton for the position before his election, and we congratulate both him and the people now that the lot has fallen to him. He will be a true representative of the people in the United States Senate, which will be something of a novelty to Californians.

Relying upon Mr. Felton's ability and integrity, the people of Southern California expect that he will use his influence in the Senate to further the legitimate aspirations and supply the pressing needs of this end of the State, services for which we have hitherto looked in vain to our Senatorial representatives at the National Capitol. We shall not expect Mr. Felton to show undue preferences for any part of the State, but to treat both North and South with equal fairness, always remembering that the Central California, around the Bay of San Francisco, has hitherto monopolized the lion's share of Congressional favors.

THE EIGHT-HOUR BILL.

Gov. Markham has, so far, sent four vetoes to the Legislature. Perhaps the one that will excite the most comment is the veto of the bill amending the eight-hour law. The amendment proposed that every contractor and sub-contractor should agree not to permit, knowingly, any work whatever upon the construction in hand in excess of eight hours out of twenty-four, by any employee. For violation there was to be forfeiture of all payments due and inability to recover any compensation for the work. The purpose of the amendment was to make more effective the present eight-hour law and to prevent its evasion.

The Governor holds that the amendment would not effect the desired end. Eight hours is at present a legal day's work upon all public works, and contractors under the State or municipal corporations are bound to observe it, but there is nothing in the law to prohibit piece work or work by the hour. The Sacramento Record-Union strongly indorses the action of Gov. Markham in vetoing this bill, as being taken in the interest of the laborers themselves. That journal says:

The amendment as it reads is ambiguous, and would leave so much of doubt in the mind that only by litigation, long, tedious, and costly, could the law be interpreted, and that at the expense of some contractor able to bear the punishment. It is wise, therefore, to return it to the Legislature with these defects pointed out. The Governor has done his duty in the matter, with emphasis, and without hesitation. In truth, his veto is directly in the interest of labor, and should excite its gratitude, for assuredly the proposed amendment would have resulted to the disadvantage of mechanics generally, and, at the very best, would have given a law so full of doubts and uncertainties, as to have been a hindrance to labor.

The American hog is likely to become an international question between the United States and Germany. Minister Phelps has been requested to demand of the German authorities that the embargo on American pork be at once removed, or the President will proceed to exercise the authority given him by the last Congress and by proclamation to close our ports against German imports. The Germans maintain that there is no unreasoning prejudice there against American meats, but that those which they receive are much inferior to the German article, being poorly prepared and poorly packed. Judging from disclosures made during the Congressional inquiry

its performance last night, it does not appear to fall far short of the mark. The ingredients necessary to insure popularity. Certainly, there is nothing for the moralist to object to. The piece preaches a good sermon. It is a good story. It is industrious and the idle apprentice. Two girls, sisters, come to New York; one gets astray by a young man, and after a brief period, descends to the depths of destitution and despair, but is saved from self-destruction in the last act, and presumably marries in the company of her sister who, meanwhile, has become housekeeper in a hotel and marries the proprietor. The seducer, after ruining himself and murdering his father, takes poison and properly dies.

The dialogue is sensibly written and contains a great many home truths, the utterances of which brought forth frequent applause as much for the witty way in which they were delivered by Mr. Ryman as for the caustic severity of the utterances themselves. Mr. Ryman as "Hiram" Pennypacker, from Missouri, had a great deal to say, but said it well and gained the sympathies of his audience, even those who did not care perhaps about the morality of his character. He was a well-kept, self-contained and dryly humorous conception, not without touches of pathos and very effective as a whole. James A. Mahony displayed considerable ability in the young villain, and his descent into the character of outcast and vagabond was excellent, both in make-up and acting.

Miss Merrick, who played the difficult part of the wayward girl who pays a dear price for her short-lived pleasures, made about all there was out of the part and is fairly entitled to more than ordinary recognition. Her recognition, however, is strong personality; the breaking down of "Martha's" pride, her desertion and destitution were shown in colors as much for the witty way in which they were delivered by Mr. Ryman as for the caustic severity of the utterances themselves. Mahony displayed considerable ability in the young villain, and his descent into the character of outcast and vagabond was excellent, both in make-up and acting.

Miss Merrick, who played the difficult part of the wayward girl who pays a dear price for her short-lived pleasures, made about all there was out of the part and is fairly entitled to more than ordinary recognition. Her recognition, however, is strong personality; the breaking down of "Martha's" pride, her desertion and destitution were shown in colors as much for the witty way in which they were delivered by Mr. Ryman as for the caustic severity of the utterances themselves. Mr. Ryman as "Hiram" Pennypacker, from Missouri, had a great deal to say, but said it well and gained the sympathies of his audience, even those who did not care perhaps about the morality of his character. He was a well-kept, self-contained and dryly humorous conception, not without touches of pathos and very effective as a whole. James A. Mahony displayed considerable ability in the young villain, and his descent into the character of outcast and vagabond was excellent, both in make-up and acting.

THEIR CANDIDACY MEANS

The Attitude of Each Toward the Senatorial Question—Waste-basket Tactics Will Not Win.

SACRAMENTO, March 18.—A clear statement of the respective positions of the three leading candidates for Senator in the pending contest—Estee, De Young and Felton—is necessary to a correct understanding of the situation here. Such a statement I will now attempt to give, and in it will aim to show the relations of the candidates to the man who stands sponsor for the present Legislature (Mr. Stanford) to the railway corporation, to each other, and to the Republican party.

Mr. Estee is clearly and notoriously the personal choice of Stanford, as contradistinguished from the Southern Pacific Company; for the man and the corporation are no longer one, but two distinct entities, wide apart and with opposing aims. The Senator is in politics for himself, and with an eye ever upon 1892; the railroad company, under the guidance of Stanford's sleepless enemy, C. P. Huntington, is no longer in politics, and has not mixed to any appreciable extent in the present contest, though it is not denied that the present and his subordinates have their individual preferences among the different aspirants.

It is now an open secret that the creator of this Legislature shifted his pledges and changed his original choice, which was not Mr. Estee. He thought to find among the candidates for the shortest term the best instrument to serve his individual purposes; a man who would be the least troublesome as a colleague, and the most complaisant, who would unconditionally surrender to the millionaire autocrat of California the control of the vast patronage of the State and concede to him the right to become a cipher in the Senate. And, mortifying to say, Mr. Stanford hit upon Morris M. Estee as his choice. Should he be chosen Senator, I in common with a vast number of other Republicans who have in times past supported the man of Napa because of his faith in his manhood and independence, and his freedom from the blighting effects of corporate influence, can only hope that he may have left enough of the courage of his original convictions (vide the gubernatorial campaign of 1882) to disappoint the man who would usurp the position and subvert his Senatorial will. But there is now little room for this hope. Mr. Estee is a man of inconstant political actions; he is a good deal of a gusher, has a large and variegated record as a boiler and bridge-burner, and is of a nature sufficiently plastic to suit the purposes of Mr. Stanford who has made the sign, given the cue, and boss Stow, Dragoon and others of their kind are at work, more or less openly, to make Mr. Estee Senator at the behest of the proprietor and manager of a great Republican journal, wielding a vast influence throughout the entire State; and he has many times come to the front with this powerful engine of opinion to uphold Republican principles. He has shown himself, both as an editor and an independent, aggressive, and often severely critical of party measures and party men. But his course has been none the less meritorious or effective on that account. Though Mr. De Young and his newspaper are discredited and consistently anti-Stanford and anti-corporation in the present contest, he boldly marched into Mr. Stanford's Legislature, without as much as saying "By your leave," and offered himself as a candidate for a seat by the side of the proprietor himself. It may have been audacious, but it was admirable. He at once won a following of which he has a right to be proud. Twenty-four representatives of the people declared for him, and double that number of the journals of the State spoke his name with praise. When, seeing success beyond his grasp, he manfully withdrew the situation, withdrawing from the contest, and asked his loyal supporters to rally under the standard of Charles N. Felton, the man most nearly reflecting his views and the most likely, next to himself, to take a stand in the Senate for the people as against boodle and the author of the boodle system in California politics.

The alliance—an open, honorable alliance, as I can personally testify—was thereupon made, and Charles N. Felton has become the candidate of practically all the anti-Estee, anti-Stanford, anti-corporation forces. His vote has shot up from 14 to 38, and the prospects of his election are at this writing very bright. The library waste-basket incident (of which the telegraph will have told the readers of THE TIMES before this can be printed) has been sprung with energy and dispatch by the Estee sappers and miners, and by Col. Dan Burns, generalissimo and statesman, but, the old thing won't work. I now predict, in the face of the fact that the shadow exposure of this morning had the effect of driving off six of Felton's supporters, that cooler councils and an honest investigation, which Mr. Felton and Mr. De Young have both demanded, will result in clearing the names of both these gentlemen from the scandal which the library plotters have audaciously attempted to fasten upon them, and that then the pendulum of legislative opinion will swing back, and justice be done.

I have become so firmly convinced of Mr. Felton's personal and political integrity in this contest that I am sure the Legislature will make no mistake in conferring upon him the Senatorial honor. He has Congressional experience, business ability, high self-respect, acknowledged honesty, scholarly

attainments, and an independence of character which will make it impossible for him to subordinate himself to the senior Senator in Congress (by whom he has been treated none too well), or to betray the interests of the people of California in the Senate. Mr. Felton knows that if elected, it will be the highest act as well as the wisest policy for him to truly represent in Congress that vast segment of the Republican party, and that greater body of the people of the State which now, and for a long period, has had no adequate representation in the person of Senator Stanford. Mr. Felton knows full well that one railroad Senator or more properly, one Presidential-office seeker, is enough for the State of California to endure at one time in the Senate of the United States; and his best impulses will teach him that, if needful, he must make himself a Senator of the people.

As to Mr. Felton's attitude toward Senator Stanford's political aspirations, I can safely say that, whatever it may have been in the past, recent differences—to say nothing of Felton's repugnance to performing the "Kotlow" act—have been sufficient to place the two men wide apart; and I predict that Mr. Felton will never again be found in the Stanford camp. As I write, the ceaseless buzz of excitement fills the Capitol halls, hotel corridors and all public places. The battle is on, the clans are clashing and the night is pregnant with events.

BRAWNY BRUISERS.

Joe McAuliffe and Jim Daly
Have a Bout.

The Quaker City Boy Badly Punished
by the New Yorker.

It Manages to Win by Staying
Through Six Fierce Rounds.

Australian Comment on the Choy-
ski-Goddard Fight—A Brutal
Contest Stopped by the
Stockton Police.

Telegraph to The Times.
[Associated Press.] March 19.—[By
the Associated Press.] The much-
killed of prize fight between Joe Mc-
Auliffe of New York and Jim Daly of
Philadelphia took place in the vicinity
this city tonight. Nearly three
hundred persons witnessed the mil-
lions of the fight were that Daly
could stay six rounds for a purse of
1000. This he managed to do, and
although receiving a lot of punish-
ment, was almost as fresh as his
opponent at the finish. It is
only fair to McAuliffe, however, to
state that he broke the first knuckle of
his left hand in the fourth round and
was incapacitated from hitting the
Quaker City man as hard as he might
otherwise have done. McAuliffe
weighed 210 pounds and Daly 162.
Two ounce gloves were used.

First round—McAuliffe feinted with
his left and drove his right into Daly's
wind, the latter retaliating with a
wicked upper cut which just missed.
An upper cut from the New Yorker
fell short, and then Daly rushed,
swinging on to his neck.

Second round—The Quaker City boy
cleverly dodged a hard swing but
caught another in the face. Both
spared for wind and then Joe drove
his man to the ropes. McAuliffe was
mad, and sending in his right smashed
Daly on the nose and drew first blood.

Third round—McAuliffe gave his op-
ponent a rib roaster, knocking him
down. He was soon up and the round
ended with a clinch.

Fourth round—The hot fighting was
beginning to tell, although each con-
tinued to slug. McAuliffe knocked
Daly squarely off his feet.

Fifth round—McAuliffe drove Daly
to the ropes, where each caught a
couple of hot ones, Daly being knocked
down.

Sixth round—Daly hit McAuliffe a
hard one in the neck, the New Yorker
attempting two terrific swings, which
were harmless. Daly gave McAuliffe
a smash over the heart and was
knocked down, but got up again in the
required time. There was another
clinch, after which McAuliffe tried to
push Daly down, but failed.

Time was called soon after. Under
the terms of the meeting, Daly was
declared the winner. Neither man was
much marked, Daly showing the most
punch.

CHOYNSKI AND GODDARD.

Sydney Comment on Their Recent
Meeting in the Ring.

SAN FRANCISCO, March 19.—[By the
Associated Press.] Mail advices from
the steamship Mariposa which arrived
today, give a graphic description of
the prize fight which took place at
Sydney February 10th between Joe
Choynski and Joe Goddard. Com-
menting on the fight the Sydney Re-
feree says:

It was a grim slaughter, a terrible
fight all the way through, and the
better man won. Choynski was
whipped, but he proved a man of
whom America may well be proud. He
gave away thirty pounds weight and
it was that which licked him. This
fight should teach the Sydney
public that they have under-
rated the game, clever Mick
Dooley, the man who twice
met and fought Joe Goddard to a stand-
still. Choynski is the second wonder
in America against men of his own
weight.

Sam Fitzpatrick, the well-known
pugilist, who arrived in the Mariposa,
said it was doubtful if Goddard would
come to America at all, while Choynski
would not come until after his battle
with Dooley in May.

Mulholland Weakened.
SACRAMENTO, March 19.—George
Mulholland of Australia and Billy
Morrissey of Sacramento, light-weights,
fought twenty rounds at the Clunie
Opera House tonight. They fought
bitterly and desperately for nineteen
rounds, and Mulholland seemed to have
everything his own way, but in the
twentieth round the Australian
suddenly gave up the fight and left the
ring. He said he was going to Aus-
tralia in the morning and was not
going to fight all night. All through
the fight Morrissey repeatedly punched
the Australian over the heart, and
this probably caused him to weaken so
suddenly.

Police Stop Juvenile Pugilism.
STOCKTON, March 19.—The police this
evening stopped a bloody "scientific"
boxing exhibition at the Aurora Club
rooms, and took the names of many
persons there. The contestants were
boys, and they fought hammer and
bong, bringing blood so that it colored
their striped bodies. Then the police
rushed in and stopped the fight, but
made no arrests. The club managers
had received notice early in the evening
that their exhibition would not be
allowed, but the crowd wanted sport.
The matter will be laid before the Dis-
trict Attorney tomorrow.

A Bantam Battle.
LEONORE (Ill.) March 19.—Link
Pope of Streator, Ill., and Martin
Flaherty of Providence, R. I., bantam-
weights, fought for nearly two hours
this morning for a purse of \$500 and
a side bet of \$100. The struggle was a
fierce one throughout. The Rhode
Island man had the best of it
from the start and was declared the
winner at the end of the twenty-sixth
round. From the twentieth to the
twenty-sixth Flaherty hit his opponent
at will, and in one round knocked him
down four times.

Myers and McAuliffe.
NEW ORLEANS, March 19.—The
Olympic Club has offered a purse of
\$5000 to McAuliffe and Myers for a
glove contest to take place in about
six weeks. McAuliffe to answer within
four days. Kennedy, Myers' backer
is here.

Ex-Gov. Robinson is Dying.
ELMHURST (N. Y.) March 19.—Ex-Gov.
Lucius Robinson is sinking rapidly.

SUMMARY MEASURES.

Germany Must Accept the American
Hog Forthwith.

NEW YORK, March 19.—[By the As-
sociated Press.] A Washington special
to the Mail and Express says: Pres-
ident Harrison has determined upon
summary measures to relieve Ameri-
can pork, which is subject to so much
German opposition. Minister Phelps
has been notified by the State Depart-
ment, at the request of President Har-
rison, to demand of the German au-
thorities that the embargo be at once
removed, else the President will pro-
ceed to exercise the authority given
him by the last Congress and by pre-
clamation to close our ports against
German imports. The announcement
amounts to nothing less than a threat,
and the result will be interesting.
State Department officials refused to
discuss the matter this morning.
There is no doubt a communication
has been sent to Minister Phelps, for
the President so informed a Senator
who called upon him this morning.

WASHINGTON, March 19.—The Pres-
ident could not be seen, but the Sec-
retary of State, Mr. Blaine, when seen
this evening, said he was not aware the
President proposed to take any such
action.

AN ACTOR'S SUICIDE.

HENRY AVELING DIES BY HIS
OWN HAND.

He Leaves Letters Indicating that
Entanglements With Female
Members of the Profession
Caused His Rash Act.

By Telegraph to The Times.
NEW YORK, March 19.—[By the As-
sociated Press.] Henry Aveling, an actor
well known in the profession, com-
mitted suicide at the Sturtevant
House yesterday. He left some letters,
in one of which he bequeathed every-
thing he possessed to William Sheldon
of the Pennam Company. He asked
Sheldon to prevent Miss Milton
Willets from appearing at his obse-
quies.

He left another letter addressed to
an actress named Clara Thompson
saying: "We could not live as we
wished, and I go now into a great
fatigue. Find me there, my darling,
if you can."

A letter was found among his effects
signed by Marguerite Benison, demand-
ing that he make some provision for
her subsistence. She is an actress
with whom he came to this country
from England in 1879, and they passed
as man and wife.

In 1887 Aveling married Miss Milton
Willets, and they lived together until
within a year. She began divorce
proceedings on the ground of insuf-
ficient support and incompatibility of
temper.

Clara Thompson, referred to above,
said she had no knowledge that Aveling
intended suicide.

Thurman Resigns.
COLUMBUS (O.), March 19.—A. W.
Thurman, president of the National
base ball board of control, has ten-
dered his resignation as a member of
that board. Thurman says his resig-
nation is caused by the necessity of
giving his entire attention to private
business affairs.

cally opposed to any county division in
Southern California. He requested of
Dibble as a personal favor that he let
county division alone. Dibble showed
a list showing the people who favored the
Riverside bill.

Your name is there?" said Hewitt.
"I didn't look over the names at all,"
answered Marion.

Witness was shown the checked roll-
call and papers with figuring, and he
declared he never saw them before.

Gen. Hart asked: "Have you been
promised any money or property in
reference to your vote on any bill or on
the Senatorial contest?"

"I have not. I would not allow a
man to approach me in that way, sir."
The next witness was Lawyer Per-
kins of San Bernardino. He said:

"Judge Rowell came to me and in the
presence of Evans spoke about as
follows: 'Have you heard the latest?'
I said: 'No; what is it?' He said: 'It's
rumored a committee will be appointed
to investigate the boodle matter.' I re-
marked: 'Glenn county?' He said: 'Yes, Glenn,
and Riverside particularly.'"

Question—Did Evans say to you,
"Our folks will spend \$50,000 to carry
the Riverside Bill in defiance of all
their investigating committees?"

Answer—Yes, sir; he turned to me
and was very vindictive or mad to
think that Judge Rowell would make
such an assertion, and he made that
remark to me.

Question—Do you know personally
of any money being used with refer-
ence to Riverside county?

Answer—No; only rumors which I
have tried to trace to their foundation.

Question—Do you know of any
money used to defeat the bill?

Witness further stated that Dr.
Brenneman of Riverside had told him
that Joe Brown of San Bernardino had
telegraphed about February 27 that
the price fixed to pass the bill was
\$24,000.

The committee then adjourned, and
one of the committee was going out
of the room he remarked to a River-
side man "This same old-d thing has
made a county tomorrow."

BRAWNY BRUISERS.

Joe McAuliffe and Jim Daly
Have a Bout.

The Quaker City Boy Bally Punished
by the New Yorker.

But Manages to Win by Staying
Through Six Fierce Rounds.

Australian Comment on the Choy-
nski-Goddard Fight—A Brutal
Contest Stopped by the
Stockton Police.

By Telegram to The Times.

HARRISBURG (Pa.), March 19.—[By the Associated Press.] The much-talked-of prize fight between Joe McAuliffe of New York and Jim Daly of Philadelphia took place in the vicinity of this city tonight. Nearly three hundred persons witnessed the mill. The terms of the fight were that Daly should stay six rounds for a purse of \$1000. This he managed to do, and although receiving a lot of punishment, was almost as fresh as his burly opponent at the finish. It is only fair to McAuliffe, however, to state that he broke the first knuckle of his left hand in the fourth round and was incapacitated from hitting the Quaker City man as hard as he might otherwise have done. McAuliffe weighed 210 pounds and Daly 162. Two ounces gloves were used.

First round—McAuliffe feinted with his left and drove his right into Daly's wind, the latter retaliating with a wicked upper cut which just missed. An upper cut from the New Yorker fell short, and then Daly rushed, swinging on to his neck.

Second round—The Quaker City boy cleverly dodged a hard swing but caught another in the face. Both sparred for wind and then Joe drove his man to the ropes. McAuliffe was mad, and sending in his right smashed Daly on the nose and drew first blood.

Third round—McAuliffe gave his opponent a rib roaster, knocking him down. He was soon up and the round ended with a clinch.

Fourth round—The hot fighting was beginning to tell, although each continued to slug. McAuliffe knocked Daly squarely off his feet.

Fifth round—McAuliffe drove Daly to the ropes, where each caught a couple of hot ones, Daly being knocked down.

Sixth round—Daly hit McAuliffe a hard one in the neck, the New Yorker attempting two terrific swings, which were harmless. Daly gave McAuliffe a smash over the heart and was knocked down, but got up again in the required time. There was another clinch, after which McAuliffe tried to push Daly down, but failed.

Time was called soon after. Under the terms of the meeting, Daly was declared the winner. Neither man was much marked, Daly showing the most punishment.

CHOYNSKI AND GODDARD.
Sydney Comment on Their Recent Meeting in the Ring.

SAN FRANCISCO, March 19.—[By the Associated Press.] Mail advices by the steamship Mariposa which arrived today, give a graphic description of the prize fight which took place at Sydney February 10th between Joe Choynski and Joe Goddard. Commenting on the fight the Sydney Referee says:

It was a grim slaughter, a terrible fight all the way through, and the better man won. Choynski was whipped, but he proved a man of whom America may well be proud. He gave away thirty pounds weight and it was that which licked him. This fight should teach the Sydney public that they have underrated the game, clever Mick Dooley, the man who twice met and fought Joe Goddard to a standstill. Choynski is the second wonder in America against men of his own weight.

Sam Fitzpatrick, the well-known pugilist, who arrived in the Mariposa, said it was doubtful if Goddard would come to America at all, while Choynski would not come until after his battle with Dooley in May.

Mulholland Weakened.

SACRAMENTO, March 19.—George Mulholland of Australia and Billy Morrissey of Sacramento, light-weights, fought twenty rounds at the Clunie Opera House tonight. They fought bitterly and desperately for nineteen rounds, and Mulholland seemed to have everything his own way, but in the twentieth round the Australian suddenly gave up the fight and left the ring. He said he was going to Australia in the morning and was not going to fight all night. All through the fight Morrissey repeatedly punched the Australian over the heart, and this probably caused him to weaken so suddenly.

Police Stop Juvenile Pugilism.

STOCKTON, March 19.—The police this evening stopped a bloody "scientific" boxing exhibition at the Aurora Club rooms, and took the names of many persons there. The contestants were boys, and they fought hammer and tongs, bringing blood so that it colored their striped bodies. Then the police rushed in and stopped the fight, but made no arrests. The club managers had received notice early in the evening that their exhibition would not be allowed, but the crowd wanted sport. The matter will be laid before the District Attorney tomorrow.

A Bantam Battle.

LEONORE (Ill.), March 19.—Link Pope of Streator, Ill., and Martin Flaherty of Providence, R. I., bantam-weights, fought for nearly two hours this morning for a purse of \$500 and a side bet of \$100. The struggle was a fierce one throughout. The Rhode Island man had the best of it from the start and was declared the winner at the end of the twenty-sixth round. From the twentieth to the twenty-sixth Flaherty hit his opponent at will, and in one round knocked him down four times.

Myers and McAuliffe.

NEW ORLEANS, March 19.—The Olympic Club has offered a purse of \$5000 to McAuliffe and Myers for a glove contest to take place in about six weeks. McAuliffe to answer within four days. Kennedy, Myers' backer is here.

Ex-Gov. Robinson is Dying.
ELMHURST (N. Y.) March 19.—Ex-Gov. Lucius Robinson is sinking rapidly.

SUMMARY MEASURES.

Germany Must Accept the American
Hot Footnote.

NEW YORK, March 19.—[By the Associated Press.] A Washington special to the Mail and Express says: President Harrison has determined upon summary measures to relieve American pork, which is subject to so much German opposition. Minister Phelps has been notified by the State Department, at the request of President Harrison, to demand of the German authorities that the embargo be at once removed, else the President will proceed to exercise the authority given him by the last Congress and by proclamation to close our ports against German imports. The announcement amounts to nothing less than a threat, and the result will be interesting. State Department officials refused to discuss the matter this morning. There is no doubt a communication has been sent to Minister Phelps, for the President so informed a Senator who called upon him this morning.

WASHINGTON, March 19.—The President could not be seen this evening, but Private Secretary Halford said he had not heard of any such letter as the one mentioned above.

First Assistant Secretary of State Wharton said he knew nothing about the matter, and did not know that such a step was contemplated.

Secretary Blaine, when seen this evening, said he was not aware the President proposed to take any such action.

AN ACTOR'S SUICIDE.

HENRY AVELING DIES BY HIS
OWN HAND.

He Leaves Letters Indicating that
Entanglement With Female
Members of the Profession
Caused His Rash Act.

By Telegram to The Times.

NEW YORK, March 19.—[By the Associated Press.] Henry Aveling, an actor well known in the profession, committed suicide at the Sturtevant House yesterday. He left some letters, in one of which he bequeathed everything he possessed to William Sheldon of the Penman Company.

He asked Sheldon to prevent Miss Milton Willets from appearing at his obsequies.

He left another letter addressed to an actress named Clara Thompson saying: "We could not live as we wished, and I go now into the great future. Find me there, my darling, if you can."

A letter was found among his effects signed by Marguerite Benson, demanding that he make some provision for her subsistence. She is an actress with whom he came to this country from England in 1879, and they passed as man and wife.

In 1887 Aveling married Miss Milton Willets, and they lived together until within a year. She began divorce proceedings on the ground of insufficient support and incompatibility of temper.

Clara Thompson, referred to above, said she had no knowledge that Aveling intended suicide.

Thurman Resigns.

COLUMBUS (O.), March 19.—A. W. Thurman, president of the National base ball board of control, has tendered his resignation as a member of that board. Thurman says his resignation is caused by the necessity of giving his entire attention to private business affairs.

cally opposed to any county division in Southern California. He requested of Dibble as a personal favor that he let county division alone. Dibble showed a list showing the people who favored the Riverside bill.

"Your name is there?" said Hewitt.

"I didn't look over the names at all," answered Marion.

Witness was shown the checked roll-call and papers with figuring, and he declared he never saw them before.

Gen. Hart asked: "Have you been promised any money or property in reference to your vote on any bill or on the Senatorial contest?"

"I have not. I would not allow a man to approach me in that way, sir."

The next witness was Lawyer Perkins of San Bernardino. He said: "Judge Rowell came to me and in the presence of Evans spoke about as follows: 'Have you heard the latest?' I said 'No; what is it?' He said 'It's rumored a committee will be appointed to investigate the boodle matter.' I remarked 'Glenn county?' He said, 'Yes, Glenn, and Riverside particularly.'"

"Did Evans say to you, 'Our folks will spend \$50,000 to carry the Riverside Bill in defiance of all their investigating committees?'"

Answer—Yes, sir; he turned to me and was very vindictive or mad to think that Judge Rowell would make such an assertion, and he made that remark to me.

Question—Do you know personally of any money being used with reference to Riverside county?

Answer—No; only rumors which I have tried to defeat their foundation.

Question—Do you know of any money used to defeat the bill?

Answer—No.

Witness further stated that Dr. Breneman of Riverside had told him that Joe Brown of San Bernardino had telegraphed about February 27 that the price fixed to pass the bill was \$24,000.

The committee then adjourned, and as one of the committee was going out of the room he remarked to a Riverside man "This same d-d thing has made a Senator today and it is liable to make a county tomorrow."

PASADENA POSTOFFICE.

Geo. F. Kernaghan Captures the Plum.

ONE OF SEVERAL APPLICANTS.

Pasadena Will be Represented at the Chicago Exhibit—Numerous Locals—Brevities and Personals.

A dispatch reached here yesterday from Washington that George F. Kernaghan had been appointed postmaster at Pasadena, to succeed W. U. Masters, the present incumbent, who has filled the position so acceptably to both parties. Mr. Kernaghan was one of several applicants for the place, and his appointment was not altogether unexpected.

MR. OUTHWAITE'S HORSES.

The Pedigree of a Fine Lot of Animals.

J. H. Outhwaite, owner of Firefly, who beat C. S. Martin's Post Boy at the driving park last fall, has acquired possession of a very promising lot of horses. Some of them he keeps at a ranch not far distant from his handsome residence on the highlands northeast of town, and the rest of the animals are scattered about over the East.

Mr. Outhwaite has no stock for sale but he has just issued a handsome catalogue for his own satisfaction and as an offering to his friends, giving the pedigree of his steppers. With the aid of this little book and from information from Mr. Outhwaite himself the following pointers were obtained.

A bay colt, foaled May 24, 1889, heads the list. Sire, Stamboul with a record of 2:11; first dam, Alto Belle; second dam, the famous Beautiful Belle, with a record of 2:29; Amulet, foaled in April, 1889, is a bright bay filly, bred by L. J. Rose of Los Angeles. Sire, Alcazar with a record of 2:20; first dam Flower Girl; second dam, Flora. Amulet was broken as a yearling last June and turned out; she was taken up in the fall and has since trotted a quarter 47 seconds.

Bicari, foaled in 1887, is a bay mare, bred in Kentucky to Stamboul. Sire, Director, with a 2:17 record; first dam, Bicara; second dam, Belle. One of the most promising of the lot is Decorum, Sire, Director, first dam, Echora. She was foaled in March, 1889, is a large brown filly, and was bred at Pleasanton, this State. She has trotted a quarter on a half-mile track in 44 seconds. Decorum is entered in some of the coming big eastern events. Lady Clara is a chestnut filly, foaled in 1888, with a record of 2:41 on a half-mile track. She is entered in several stakes and is kept at Mr. Outhwaite's eastern residence at Cleveland. Her sire is Elvira, dam Lou.

Lasca, foaled February 6, 1889, is a large, handsome brown filly, bred by L. J. Rose, Los Angeles. Her dam, Zoraya, was sold at auction to Messrs. Storley and Clay last spring for \$13,100, the highest price ever paid for a brood mare at auction. Zoraya was a fast daughter of Guy Wilkes, and out of the fast Neluka. Lasca is fast; she was broken as a yearling, turned out to pasture, taken up a little later, and in five weeks' work in the hands of Walter Maben, trotted a quarter on a half-mile track in 40 seconds, and can show a quarter in 38 seconds. Lasca's sire is Stamboul.

Another filly from Stamboul, foaled by Clara Wall in March, 1889, is Marmora, bred by Mr. Rose. Marmora stepped a quarter in 46 seconds as a yearling.

Nellie, sire Patron, with a record of 2:14; dam Nellie G. is a brown filly foaled in June, 1889. She is entered in the Spirit of the Times \$10,000 stakes, Independence and Hartford stakes. Nellie is a handsome dark bay mare that should enter the 2:30 list this season. Sire Grand Sentinel, with a record of 2:27; dam Nellie G.

Nellie G. was foaled in 1875 and has a record of 2:20. She gained her record in 1886 at Saginaw, and at Detroit where she won the 2:20 class, defeating Belle F. Judge Davis, Tom Rogers, Albert France and others. She has trotted the Cleveland track in 2:18. Nellie G. is sired by a grandson of Lexington, and has the trotting instinct and transmits it. One of Mr. Outhwaite's fastest horses is Winona, foaled in 1882. She was driven by a former owner who weighs 280 pounds, to a top wagon weighing 150 pounds, when the Cleveland track in 2:27. She has been driven a half over the San Francisco track in 1:04. It is thought she can beat 2:18 with one season's handling.

Others of the horses catalogued are Kate Carey, sire Kentucky Prince, dam Iner, and her pole mate Shiley, which team can trot to pole in 2:30; and Parody, foaled in 1880, sire Patron, dam Nellie G., both in the 2:20 list.

Mr. Outhwaite is a lover of good horseflesh and a good judge of it as well. He has been careful in the selection of his stock, and when the price he has thus started is carried to a successful issue, he will probably be in possession of some of the fleetest horses in the country.

THE CHICAGO FAIR.

The Council asked for an Appropriation.

Pasadena's exhibit at the citrus fair in Chicago was the all-absorbing topic of conversation yesterday. All agreed that the town must be well represented, and that at least \$500 will be required to defray the necessary expenses. Some difference of opinion, however, was expressed as to the best method of raising the money, and although the soliciting committee had succeeded fairly well in raising individual subscriptions, what is generally considered a more feasible plan was hit upon. This is explained in the following petition, copies of which are being circulated and largely signed. The paper is addressed to Mayor Lukens and the members of the City Council, and reads:

"Your petitioners would respectfully request and pray that you, in your official capacity, do appropriate from the city funds the sum of \$500 for the purpose of securing to our citrus fair exhibit committee the local guarantee fund necessary for the removal of our Pasadena exhibit from Los Angeles to Chicago; for its maintenance while there and also for the purchase of choice fruit for said exhibit. We make this urgent request believing that it will conserve the best interests of our city and its various industries. The fair at Los Angeles, although

benefit to all of our citizens, was supported by the liberality and untiring labors of but a few of our people. We now, therefore, petition your honorable body as above, that the burden of the enterprise may be equally distributed among all of our taxpayers."

The members of the Council have expressed no opinion on the subject, but all the gentlemen are deeply interested in the project and if the petition is signed by a number of our property owners the appropriation will likely be granted. The Times would suggest that as \$500 is the minimum amount needed to run the show, as many of our citizens as are able contribute individually to the fund and thus furnish the wherewithal to add to the excellence of our exhibit.

The Palm for Photography. Pasadena was awarded the palm for the best photographs taken of the citrus fair. Competition was brisk, but the pictures developed by W. H. Hill of this place were adjudged superior to all others. Two hundred of the largest mounts, showing the most attractive exhibits, have been ordered by the association to be displayed as advertisements in Chicago show windows to attract people to the coming show there. They cannot help but prove drawing cards.

BREVITIES.

The clear-weather signal is displayed.

Dr. Smith's condition remained unchanged yesterday.

The streets are in good condition, barring a few exceptions.

The shipments of oranges from this place east continue large.

B. O. Kendall has returned from a short trip to Santa Barbara.

The sunset yesterday evening was one of exceptional grandeur.

Snow fell on the mountains Wednesday night, while it was raining so hard here.

The road machine was operating with good effect on Los avenue yesterday.

L. C. Torrance gave a stag party to a small party of friends on Wednesday evening.

The guests at the Hotel Green were entertained at cards Wednesday evening.

News of U. N. Felton's election as Senator was received with general satisfaction in Pasadena.

Nearly half an inch of rain fell during the showers of the past few days, most of it Wednesday night.

A full attendance is desired at the meeting of the male chorus at the Universalist Church this evening.

There were hosts of visitors in town yesterday, and frequent were the exclamations of delight over what they saw.

At the Chautauqua meetings to be held this summer, Superintendent Will S. Monroe will take a conspicuous part.

What is Likely to Happen. (Oakland Times.)

There is something terrible in the taking of the law into their own hands by the people of New Orleans, and yet it seems to have been almost necessary. Some day, when a highbinder's bullet kills a white man, that sort of thing is exceedingly apt to happen in San Francisco.

HEAVY RAILROAD BUSINESS.

Another Safety Car-coupler—The Burlington's Move—The Anaheim Road—General and Local Gossip.

Gen. John McNulta, the Bloomington, Ill., attorney, who made a brilliant record as receiver of the Toledo, Cincinnati and St. Louis, and the Wabash railroads, has been employed as counsel by the Vanderbilt lines to represent them in Washington in measures looking to the relief of American roads which must of necessity compete with Canadian lines not at present amenable to the provisions of the interstate commerce law. In his opinion, the only practicable remedy to equalize the competition is to withdraw the right of Canadian roads to haul loaded or through cars within the United States as a penalty for any violation of the interstate law as it now stands. It is thought that the only way of attaining immediate results is by paying an annual tribute to the Canadian lines to keep them out of transcontinental affairs, and that by this proceeding an agreement could be adjusted between the American and the Canadian lines. The general thinks that a one-half cent and short haul tariff, with a suspension of the fourth section of the law in special cases, would enable American roads to do business on an equality with the formidable rival.

The Santa Fe overland came in on time yesterday. The Southern Pacific hauls a daily orange train out of Los Angeles.

Another Raymond & Whitcomb excursion is due to arrive by the Santa Fe next Tuesday.

The Santa Fe overland for the East, yesterday, was an unusually heavy train, being completely loaded with passengers.

Further gossip and speculation about the proposed Union Pacific line, and the ultimate fate of the same, is nothing that can be known until the owners have rendered a decision.

The San Francisco Chronicle says: A portion of the stock of the Anaheim-Chino narrow-gauge line has been floated in this city, and the funds are so well in hand that work is to be prosecuted at once. Operations are to be commenced at Anaheim.

A New York dispatch says that the Mexican railroad project known as the Sonora, Sinaloa & Chihuahua road, which is to be built from Deming, N. M., to Chihuahua, and thence to Toluca, has taken a new lease of life, and will be completed within two years.

A. H. Weil, section foreman of the Southern Pacific, has invented a new freight car coupler which has the merit of extreme simplicity, the contrivance retaining the link and pin as its principal features. He has been working on the idea since 1875 and is in hopes of profiting by it.

Never before since the "boom" has so much merchandise freight been brought to Los Angeles as now. The Southern Pacific alone brings in daily freight trains loaded with goods, which is a sure indication that business is becoming so much better that merchants are justified in buying extensively.

There is a general opinion hereabout that the Burlington has made a mistake in closing up its Los Angeles office. Competitors will profit by the move, and they will follow the example and also return from the Burlington representatives have adopted as their motto "The Burlington leads—all others follow." If this should prove to be true it will look bad for the other fellows, too.

NEWS AND BUSINESS.

The Weather. SIGNAL OFFICE, LOS ANGELES, March 19. At 5:07 a. m. the barometer registered 29.87, at 5:07 p. m. 29.93. The thermometer for corresponding hours showed 46°, and 68°. Maximum temperature, 75°; minimum temperature, 46°. Weather—Cloudy. Rainfall for past 24 hours, .08 inch. Rainfall for season, 11.75 inch.

The Colton News has entered upon its second volume. The Native Sons and Daughters of Anaheim will give a masquerade ball on April 1. There is a probability that Riverside will send an exhibit of fruit with the citrus fair display to Chicago.

"Anglo-manufactures Abroad" by one of them. A free lecture by Dr. Cantline at the First Methodist Episcopal Church to-night.

San Bernardino feels badly because Kira's Warmer Company did not show there. San Bernardino would have felt worse if it had.

From five to ten carloads of orange trees have arrived in the State from Florida in a frozen condition, and will be a total loss. They were sent around by way of Chicago and Ogden at the time of the recent flood.

The Press says that M. Macdonald has sold 500 acres of land in West Virginia to a syndicate of Los Angeles gentlemen for \$35,000. The purchasers will put in a pipe and set out about 100 acres to oranges at once.

One of the busiest places in the city during the rush of visitors to this city, owing to the late citrus fair, was the Vienna Bakery. The dining parlors seemed to have been a favorite resort for our country cousins and visitors, and it taxed the establishment to its limit to cater to its wants. No line of business feels an improvement quicker than a restaurant, and the busy scenes around the Vienna Bakery during meal hours are a sure indication that business is increasing all over the city. The bakery department is growing rapidly, owing to its judicious and persistent advertising, and the Vienna Bakery is rapidly taking the lead in the city in the line of the feature.

Vienna Bakery is the giving away of state bread and cakes to deserving poor people, and early every morning large numbers are accommodated by this enterprising establishment.

The Veal Business. (Imprint.) Buying calves looks like a small business, but in California it brings to the dairyman and farmer in this section about \$50,000 a year. There are five or six men or firms engaged in the business, and competition among them is so lively that often runners are sent out of town to meet the farmers coming in with calves. It is a cash business. About ten thousand calves are sold here annually and they average about \$5 a head.

Another Fraud Detected. An Arizona paper calls a halt on measuring Mexican lions from "tip to tip," as these animals are principally tail, and the hunter who downs one always kills more tail than lion. This measure for a catamount or a bear is honest measure, but with the lion it becomes a swindle.

DISEASES OF MEN.

Treatment and Cure by an Entirely New and Successful Method.

Scientific investigation, supplemented by experience, has shown that Urinary Diseases are more prevalent and dangerous to life, health and happiness than any other class known to the medical fraternity. They are not confined to the low and degraded portions of humanity, as many suppose, but are found among the pure in heart, the innocent, the truly pious and the wealthy.

Many of them are transmitted from parent to child, from generation to generation. Thousands of people suffer untold agonies from these diseases, and not a few die early and untimely deaths, often ignorant of the cause. Though transmitted innocently, the effects of these diseases are no less terrible. It is a sad truth that the innocent are often greater sufferers than the guilty.

Of all the organs of the body few are more important or worthy of attention than those engaged in the urinary functions. In perfect health, that great blessing which so few enjoy—one will scarcely direct a moment's thought to these important organs, and at the first unpleasant symptom good advice, such as may easily be obtained, should be immediately sought.

Among the chief and most common of diseases is Stricture, Nervous Debility (or loss of nerve power) due to masturbation and venial excesses. Thousands of young, middle-aged and old men suffer with nervous diseases for years, and may be ignorant of the cause, when a little timely advice would make life's pathway full of cheer and happiness. When the first symptoms of seminal weakness manifest themselves, the sufferer is notified to become dull and morose, and is troubled with indigestion though the appetite may remain good. But the strength vanishes and the patient grows thin. He becomes indolent and debilitated, and loss of memory and all vigor of the sexual organs may follow. In time he may fall into a complete state of impotence—total loss of sexual power. Among its terrible effects may be mentioned weakness of the memory, confusion of ideas, nervousness, despondency and general weakness. It needs no mirror; it reflects itself. The patient, however, may be deceived, and the downward countenance, the stooping, aged form, all serve to announce the victim's troubles. It seldom kills of itself, but it opens the door to other diseases, such as consumption and diseases of the heart. The unfortunate sufferer cannot sleep. In that intermediate state between life and death intended for the recuperation of the mind and body, he can know no rest for his dreams are dark and foreboding, and the constant drain upon his system chokes it of its natural food.

This affliction may be the consequence of self-abuse or the result of excesses in mature years. As "man is but a bundle of habits," how essential that he should start right in his youth, and keep his system pure and clean. Thoughts and pure conceptions. All of you who suffer from this disease should lose no time in consulting Dr. Darrin, for the time may come when you will be beyond the aid of the medical skill.

No matter what you have taken or who has failed to cure you, call and see the doctors, as they can permanently, safely and privately cure in one-half the time and at one-half the expense required by other means. Painless and free of charge guaranteed by an entirely new method.

Dr. Darrin's Specialties and Place of Business.

Dr. Darrin makes a specialty of all diseases of the Eye, Ear, Nose and Throat, and all nervous and chronic diseases, such as Syphilis, Gonorrhea, Blood Taints, Syphilis, Gleet, Gonorrhea, Stricture, Spermatorrhea, Sexual Weakness, or Loss of Desire or Sexual Power in man or woman. CATARRH!

Throat Diseases, Asthma, Bronchitis and Consumption.

Together with Diseases of the EYE, EAR and HEART; also diseases incident to FEMALES, and all other ailments successfully treated by

DR. M. HILTON WILLIAMS,
137 S. Broadway, Los Angeles, Cal.

In order to show the relative time it requires to cure the various diseases, we give few extracts from letters received from those cured.

Charles Stout, Philadelphia, says: I visited Southern California in June, 1884, for my health, having suffered for ten years with consumption, but after remaining for three months I then tried Dr. Williams' medicine, and in four months I was cured.

E. N. Lewis, Esq., with E. C. Glidden, Esq., Wheeler & Wilson, M. Co., 80 N. Main street, Los Angeles, says: I contracted my disease in Bridgeport, Conn., several years ago, and came to California for my health; but finding the climate alone insufficient to cure me, my lungs were so fearfully weakened, I became weak that I could not walk across my room without help. I tried Dr. Williams' remedies and in four and a half months I was cured.

Stuart Marshall, Columbus, O., says: I was advised to visit Southern California for my health, after trying fifteen or sixteen doctors, and after remaining here for six months I found I could not rid the lungs of the hepatic or consolidation, as the doctors call it, and was induced to try Dr. Williams' (whom I have known by reputation for many years while proprietor of the Detroit Throat and Lung Institute, and I am pleased to say that at the end of one month my lungs had expanded so that I measured three inches more across the chest than when I began, and in two and a half months I was discharged as cured. I know of nothing equal to Dr. Williams' treatment for lung diseases.

Mrs. Col. John Herrington, Montreal, Canada, says: Two months ago I was cured of a bad case of catarrh of the head, ulcerated throat and lungs, of twelve years' standing, in Los Angeles, after trying twelve doctors, in as many years, in the cold regions of Montreal, with no apparent benefit.

John Davis, St. Paul, Minn., says: For six years I was afflicted with the heart disease. I was advised to try the wonderful climate of Southern California, which I did in June, 1884; but after a residence of nine months I was cured of my heart disease, and in four months I am cured of my catarrh of the head.

W. S. Herk of Hamilton, Ontario, Canada, says: About four years ago I caught a cold in my head from which I never recovered. About two years ago they began to bother me, and I was advised to try Southern California, where I did, but after a residence of nearly two years I found I was nearly as bad as ever. But as soon as Dr. Williams opened an office in Los Angeles I consulted him and began the use of his remedies, and to my delight in six months I was enabled to return home entirely cured.

And hundreds of others from every State in the Union.

Would it not be well for our visiting friends to avail themselves of this rare opportunity of becoming cured before they return to their homes?

CONSULTATION FREE.
Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to do so, the office personally can write for a list of questions and circulars, both of which will be sent free of charge. Address

THE VIENNA BAKERY

—AND—

LUNCH PARLORS.

LAST week we drew a picture of the interior of the ordinary two-bit restaurant. It attracted considerable comment, and caused many inquiries as to its truth. Every line was true, and in that connection we wish to say that while we meant no reflection on the characters of the owners of such restaurants, the fact of the matter is this:

That is the only way such places can live, and that is the reason THE VIENNA BAKERY will never conduct a Twenty-Five Cent Restaurant.

You can live better and cheaper at THE VIENNA BAKERY, have your meals properly cooked and cleanly served, and the price in every instance will be away below Chop House prices.

No Chinaman

Handles any of the food cooked at THE VIENNA.

We want to say a word about our FRENCH DINNERS. We are giving an elegant French meal, with wine or beer, for 50 Cents, that can be equalled on the Coast. We serve them daily from 5 to 8 p. m. The best people of the city dine at THE VIENNA and they all speak highly of our

FRENCH DINNERS

We fed about 9000 people this week and in no case did we hear a single complaint. THE VIENNA BAKERY is unquestionably the favorite dining room of visitors and tourists.

The Vienna Bakery DEPARTMENT.

Business is increasing rapidly. Our bread is the most wholesome and palatable made in the city. Every loaf is full weight and will weigh nearly twice as much as any other bread sold in Los Angeles.

Our cakes are simply delicious. Our famous Charlotte Russe cake is a favorite among housekeepers. There is nothing nicer for a Sunday dinner. THE VIENNA BAKERY'S wedding cakes are made by artistic workmen and are gems in their way.

Remember

The VIENNA BAKERY gives away free, stale bread to all deserving poor people, between 8 and 9 a. m. daily.

Bread one day old at half price.

The VIENNA BAKERY is open day and night.

Eastern Oysters, 25c a half plate.

The VIENNA BAKERY meats are all broiled on a charcoal broiler.

DR. WONG'S

FAMOUS SANITARIUM,

713 S. Main St., Los Angeles, Cal.

All kinds of Chinese herbs and medicines for sale. The best accommodations for those desiring to remain at the Sanitarium for treatment. Everything under the personal supervision of Dr. Wong. Consultation absolutely free. The following are a few of the testimonials of patients cured by him:

Last winter I was a first-class candidate for a consumptive's grave. After I had the so-called best physicians in Los Angeles and they had failed to benefit me in the least, and when I had run down from 170 pounds weight to 147 pounds I took Dr. Wong's medicine and was completely cured in seven weeks' time. I now weigh 165 pounds and am in the best of health.

Corner Twenty-third street and Grand avenue, Los Angeles, Cal., Aug. 16, 1890.

Four years ago my daughter, Virginia Bell, was treated by Dr. Wong for what eminent physicians called hip disease, and had pronounced incurable after treatment for seven or eight years. Dr. Wong's diagnosis was that she was afflicted with one of the thirteen forms of cancer. His medicine effected a permanent cure in seven months' time. Two years ago my grandson became blind in one eye. Dr. Wong restored his sight and the eye to a perfectly healthy condition in three weeks' time.

Savannah, Cal., August 24, 1890.

For seven months I was treated by five different doctors, none of whom stated what my disease was. During that time I suffered terribly and continued to fail until I became a skeleton. For the last three months I had to be drawn, fed and have my water drawn; I slept my feet, limbs, hands and face became swollen. I could not rise from a chair and could scarcely walk, and I was obliged to have my water drawn from fifteen to twenty times a day. My friends considered I would not last many days. I then—three months ago—commenced treating with Dr. Wong. The first dose of his medicine completely relieved me, and since, have not been obliged to resort to artificial means for relieving my bladder. In 5 days I was able to dress and feed myself, in 10 days the swelling had left me, and I could walk as well as for years before. I now weigh as much as I ever did, and feel better than I have felt for years. I am 55 years old and feel tip top. Dr. Wong says I was afflicted with one of the 13 kinds of kidney disease.
